# PROBLEM STATEMENT

In the modern digital world, having an online presence is essential for personal branding. The lack of a centralized, professional platform made it difficult for Sweatha to showcase her projects, skills, and contact details to potential employers, collaborators, or clients.

# PROJECT  OVERVIEW

This project is a personal portfolio website created for Sweatha, an aspiring web developer. The site provides a brief introduction, highlights key projects, and allows visitors to contact her easily. It is designed to be lightweight, responsive, and beginner-friendly using HTML, CSS, and JavaScript.

# WHO ARE THE END USERS?

Recruiters looking for new talent.

Clients or freelance platforms viewing developer portfolios.

Collaborators interested in open-source or team projects.

Peers or instructors reviewing project work.

# TOOLS AND TECHNIQUES

HTML5 – for structuring the content

CSS3 – for styling and layout

JavaScript – for simple interactivity and enhancements

(Optional additions)

Git/GitHub – for version control and hosting
